TECHNICAL COMPETENCIES

OS: Windows | Linux | Mac OS

Languages: Python | C | HTML | CSS |

Databases: MySQL

Other Interests: Software Engineering, Operating
System, Cloud Computing

INTERPERSONAL SKILLS

Team Leadership | Time Management | Consistency

INTERESTS & HOBBIES

Gym workout | Gaming | watching Movies

LANGUAGES KNOWN

English | Telugu |

PERSONAL DETAILS

Mother's Name: N. Bharathi

Father's Name: N. Chandra Sekhar

D.O.B: 18/08/2005

EDUCATION

Bachelors of Technology in Computer Science
Engineering | Madanapalle Institute of Technology &
Science, Kadiri Road, Andhra Pradesh
Session: 2023-2027 | Score: 7.53 CGPA

Intermediate | Sri Chaitanya Boys Junior college,
Vijayawada, Andhra Pradesh

Session: 2021-2023 | Percentage: 91%

Matriculation (SSC) | Jeevan Jyothi High School,
Proddatur, Andhra Pradesh

Session: 2020-2021 | Percentage: 100%

PROJECTS

Employee Salary Prediction

Duration: 2 Month

Environment: Windows

Languages/Database: Python

Employee Salary Prediction is a machine learning project using Python, where I built a model to estimate employee salaries based on experience and relevant attributes. The project involved data preprocessing and implementing basic machine learning algorithms to generate predictions. Through this work, I gained practical exposure to model training and understanding how real-world data is used to solve business-related problems.

Jharkhand Civic Portal (SIH Project) | Frontend Developer

Duration: 1 Month

Environment: Web

Languages/Database: HTML, CSS, JavaScript

Team Size: 6

Developed and integrated responsive frontend interfaces for a government civic services portal, implementing user-friendly forms, workflows, and UI components as part of the Smart India Hackathon (SIH).
